
Command for Chinese Font !

- `pandoc Placement.md -s -o Placement.pdf --latex-engine=xelatex -V mainfont="SimSun"`
- `pandoc Placement.md -s -o Placement.pdf --latex-engine=xelatex --template=pm-template`

Test for CPP code !

```
for (int i = 0; i < N; i++) {  
    int j = i + 1;  
}
```

Test for Math Formula !

Inline math equations go in like so: $\omega = d\phi/dt$. Display math should get its own line and be put in in double-dollarsigns:

$$I = \int \rho R^2 dV$$
