

# Pandoc Markdown + Beamer Slides Demo

Chao Yan

June 23rd, 2016

Header

# All Items show at once

- ▶ Item I
- ▶ Item II

# Items show once at a time

- ▶ Item III

# Items show once at a time

- ▶ Item III
- ▶ Item IV

Text

## Text under header

- ▶ Header I

*Write whatever you want*

- ▶ Header II

- ▶ Write whatever you think about
  - ▶ here we still have points!

Code

# Demo CPP

## ► CPP

```
for (int i = 0; i < N; i++) {  
    int j = i + 1;  
}
```

FootNote

# Test for text and footnote

Surely this is true.<sup>1</sup>

---

<sup>1</sup>Jane Doe, Says It Here (New York: Oxford University Press, 2014)

Tiny

# Test with text and a note

## Regular text size

Jonathan Sarna, *American Judaism* (New Haven: Yale University Press, 2014)

Math Formula

# Answer

$$\blacktriangleright f(x) = \sum_{n=0}^{\infty} \frac{f^{(n)}(a)}{n!} (x - a)^n$$

# Conclusion
